GENERAL INFORMATION

The purpose of this modification is to incorporate funding in the amount of [REDACTED]. Accordingly, said Task Order is modified as follows:

	FROM	BY	TO
FUNDED LABOR	[REDACTED]		
FUNDED FEE	[REDACTED]		
FUNDED ODCs	[REDACTED]		
TOTAL FUNDING	[REDACTED]		

The Limitation of Funds Clause is in effect. This Task Order is incrementally funded and FAR Clause 52.232-22 titled "Limitation of Funds" (APR 1984) is applicable and in effect. The amount of funding, [REDACTED] which includes a fixed fee of [REDACTED] is the maximum amount reimbursable under this Task Order prior to its modification to provide additional funds. The amount of [REDACTED] shall not be exceeded until this Task Order is modified to provide additional funding. This amount shall only be exceeded at the Contractor's own risk and the Government shall not be liable for costs incurred above the funded amount. The Contractor shall notify the Contracting Officer, in writing, whenever it has reason to believe that the costs it expects to incur under this contract in the next 60 days, when added to all costs previously incurred, will exceed 75 percent of the funded amount for this Task Order.

The performance period for this task order from the date of award thru 09/30/2010.

A conformed copy of this Task Order is attached to this modification for informational purposes only.

EXERCISE OF AWARD TERMS

The Award Term provisions in Section H of the contract apply to CLINS 1000 thru 1043 and 4000 thru 4010. If elected, award term periods will be exercised prior to the end of the then current contract year. For example, Year 2 will be awarded prior to the end of the Base Year, Year 3 will be awarded prior to the end of Year 2 and so on. Award of terms for performance beyond the expiration of the basic contract on 30 Sep 2011 is contingent on the basic contract being extended by the PCO.

SECTION C DESCRIPTIONS AND SPECIFICATIONS

STATEMENT OF WORK

FOR NAVAL SPECIAL WARFARE PROGRAMS SUPPORT SERVICE

1.0 SCOPE

This Statement of Work (SOW) describes the support services required to provide support for the several projects in the Naval Surface Warfare Center, Panama City (NSWC PC), Code E12 and E11. The tasks described in this SOW will be performed primarily at Buildings 89, 292, and 411 at the Naval Support Activity, Panama City (NSA PC) in Panama City, FL. The remaining tasks, not performed at NSA PC, shall be performed at a contractor facility within a two (2) hour response travel time of NSA PC for interface with NSWC PC personnel and quick response deliveries of GFM and contract deliverables. Work locations (buildings) at NAS PC are subject to change, but will not adversely impact the contractor's ability to perform required tasks. The Administrative Point of Contact (POC) for this SOW is Mr. Greg Smith, NSWC PC, Code E12, Phone: (850) 235-5629. The Task Order Manager (TOM) for this SOW is Mr. Doug Lee, NSWC PC, Code E12, Phone (850) 235-5456.

3.0 REQUIREMENTS

3.1 Contract Line Item Numbers (CLINS)

Execution of specific tasks under this SOW shall be contingent upon Goovernment Furnished Information (GFI). The Contractor shall provide the required personnel to perform tasking from the labor categories identified in SOW paragraph 3.2.

3.1.1 Code S11 Administrative Support.

The contractor shall provide administrative and documentation support for S11 development and acquisition projects and S11 personnel. Tasking may include computer-based word processing and documentation control, while observing adherence to Navy and local processes and operating procedures. The contractor shall update and maintain time and attendance records, prepare Naval messages, prepare travel orders and visit requests, prepare and file correspondence, and maintain organizational records including personnel reports, training records, financial records, and project commitments/obligations/expenses. This requirement is 100% at NSA PC.

3.1.2 Code S12 CMPro and Administrative Support.

The contractor shall provide administrative support by issuing serial numbers, issuing document numbers, and uploading documents and drawings into the CMPro database. The contractor shall update SDV documentation, extract ILS information from CMPro, maintain change status of drawings, and convert .dwg and .doc files to .pdf files. The contractor shall update Code S12 time and attendance records, prepare Naval messages, prepare travel orders for S12 personnel, file correspondence, and maintain SDV Project files. This requirement is 100% at NSA PC.

3.1.3 Code S12 AUTOCAD Drafter Support

The contractor shall provide technical support by preparing new drawings, revising existing drawings, making check-prints, and printing full size drawings. All correspondence pertaining to each drawing evolution (e.g., NORs, engineering notes, check-prints, markups, and drafting notes etc.) shall be retained in a file and delivered with the final drawing and .dwg file. This requirement is 100% at NSA PC.

CONTRACT NO. N00178-04-D-4028	DELIVERY ORDER NO. HR01	AMENDMENT/MODIFICATION NO. 53	PAGE 35 of 74	FINAL
----------------------------------	----------------------------	----------------------------------	------------------	-------

3.1.4 Drafting Support

The contractor shall provide drafting support by preparing new drawings and revising existing drawings using 2.1(a) and 2.3(l) through 2.3(p) for guidance. This requirement is approximately 50% of the time at NSA PC and the remaining time at the contractor's facility.

3.1.5 Electronics Technician Support

The contractor shall provide technical support to overhaul, disassemble, refurbish, repair, reassemble and test electronic components using 2.3(b), 2.3(c), 2.3(d), 2.3(i) and 2.3(j) for guidance. This work includes, but is not limited to, assembly of systems, equipment, and components, refurbishment of electronic components, modifications to components, and testing. The contractor shall provide support for the installation, operation, testing, maintenance, and modification to support installation of prototype equipment and subsystems as required to validate engineering changes. The contractor shall provide support for operational testing in accordance with accepted test guidance as provided by NSWC PC and as required to perform component testing, pre-installation testing, pre-operational testing and operational testing. The contractor shall provide support to perform preventive and corrective maintenance as directed by NSWC PC to ensure proper operation of electronics equipment. The contractor shall also assist NSWC PC personnel in the identification and correction on equipment failures and deficiencies that can be prevented through revised maintenance requirements or design changes. This support shall be performed approximately 25% of the time at NSA PC and 75% of the time at the contractor's facility.

3.1.6 EXP Hull Technician Support

The contractor shall provide technical support to disassemble, refurbish, repair, reassemble and test mechanical components and assemblies using 2.3(b), 2.3(i) and 2.3(j) for guidance. This work includes, but is not limited to, light machining, refurbishment of mechanical components (including valves, fittings, hoses, and brackets), and modifications to and testing of components. The contractor shall provide support for the installation, operation, testing, maintenance, and modification to support installation of prototype equipment and subsystems as required to validate engineering changes. The contractor shall provide support for operational testing in accordance with accepted test guidance as provided by NSWC PC and as required to perform component testing, pre-installation testing, pre-operational testing and operational testing, to include qualified operation of a 26' twin outboard and a 33' inboard diesel SDV chase boat. The contractor shall provide hull technician support to perform preventive and corrective maintenance as directed by NSWC PC to ensure proper operation of equipment. In addition, the contractor shall assist NSWC PC personnel in the identification and correction on equipment failures and deficiencies that can be prevented through revised maintenance requirements or design changes. This support shall be performed 100% of the time at NSA PC.

3.1.7 Engineering Support

The contractor shall provide engineering and technical support that includes, but is not limited to, capabilities in Computer Engineering, Electronics Engineering and Mechanical Engineering. This support shall be performed approximately 25% of the time at NSA PC and 75% of the time at the contractor's facility.

3.1.8 Code S12 Quality Control (QC) Support

The contractor shall provide Quality Control support that includes inspecting components against drawing requirements or identified drawing critical elements, reviewing and accounting for all required objective quality evidence, participating in testing, generating reports, resolving quality issues, filing inspection reports, tagging components, and delivering parts and OQE to appropriate offices. The contractor shall also perform non-destructive Liquid Penetrant Testing (LPT) on welded assemblies using the guidance of 2.3(h). Non-destructive test personnel shall be qualified in accordance with 2.3(e). This support shall be performed approximately 90% of the time at NSA PC and 10% of the time at the contractor's facility.

3.1.9 Code S12 Electronics Materials Handler

The contractor shall provide Materials Handling support to manage SDV electronic components inventory through

CONTRACT NO. N00178-04-D-4028	DELIVERY ORDER NO. HR01	AMENDMENT/MODIFICATION NO. 53	PAGE 36 of 74	FINAL

component tracking, ordering, receiving, stocking, issuing, and database records updating. The contractor will notify engineering of component obsolescence and provide replacement recommendations. This support shall be performed 100% of the time at NSA PC.

3.1.10 Code S12 Materials Handler

The contractor shall provide Materials Handling support to manage SDV components inventory through materials tracking, ordering, receiving, stocking, issuing, kit packing, and database records updating. This person must also be able to operate a forklift for movement of bulk or large materials. The contractor will notify engineering of component obsolescence and provide replacement recommendations. This support shall be performed 100% of the time at NSA PC.

3.1.11 Prototype Support and Casualty Repair (CASREP), Restricted Availability (RAV) Retrofit, and Fleet Support

The contractor shall provide prototype design, fabrication, assembly, installation and test support for Maritime Mission Systems equipment and SDV components. Prototypes may be developed from engineering documentation generated by the contractor as tasked, or as provided by the Government at some phase needing additional work as tasked. The contractor shall be required to provide the materials, equipment and services required to fabricate, assemble, and test subsystems, and components of new or updated SDV subsystems and components. This support shall be performed approximately 5% of the time at NSA PC and 95% of the time at the contractor's facility. The contractor shall provide technical support for SDV disassembly, inspection, refurbishment, fabrication, assembly, painting, anodizing, testing, and shipping, or portions thereof, to be performed in accordance with instructions specified in GFI and documents listed in paragraph 2.3. These persons may be tasked to incorporate class modifications covered by approved engineering changes to, or deviation from, the baseline configuration. This support shall be performed approximately 95% of the time at the contractor's facility and the remaining time at NSA PC.

3.2 Labor Categories

Each of the labor categories in this section include requirements for the type of work and skill levels that will be required to satisfy the CLIN items as described in Section 3.1.

3.2.1 Administrative

(a) The contractor shall provide one (1) suitably qualified person for administrative support. This person shall be proficient in the use of computers running Microsoft Operating Systems and Microsoft Office business software, including word processing, spreadsheets, and documentation tracking and archiving. This person shall also be familiar with web-based software so as to become an accomplished user of NAVSEA timekeeping, financial and supply data management, Navy message creation, and project reporting software. It is desirable that this person be thoroughly familiar with documentation requirements and practices for Naval Sea Systems Command and United States Special Operations Command development, acquisition, and in-service engineering programs, including documentation requirements for manned and unmanned systems, dive and life support equipment, and carry-on submarine authority.

(b) The contractor shall provide one (1) suitably qualified documentation and data entry person to provide of support. This person shall be proficient in the use of MS Word, MS Excel, CMPro, and Adobe Acrobat, and familiar with AutoCAD and Oracle. It is desirable that this person shall also be thoroughly familiar with SEAL Delivery Vehicle (SDV) specific documentation requirements and practices.

3.2.2 Technical

(a) The contractor shall provide one (1) suitably qualified Document Specialist to provide drafting support. This person shall be proficient in the use of AutoCAD 2000i. It is desirable that this person be thoroughly familiar with SDV specific drafting requirements and practices.

(b) The contractor shall provide one (1) suitably qualified Drafter, AutoCAD, to provide drafting support. This person shall be proficient in the use of AutoCAD 2000i. It is desirable that this person be thoroughly familiar with SDV specific drafting requirements and practices.

----------------------------------	----------------------------	----------------------------------	------------------	-------

(c) The contractor shall provide one (1) suitably qualified Electronics Technician to provide technical support. This person shall be qualified in accordance with Joint Industry Standard J-STD-001 and whose work must pass inspection in accordance with IPC-A-610, Acceptability of Electronic Assemblies. It is desirable that this qualified person shall be thoroughly familiar with SDV specific electronics components and systems.

(d) The contractor shall provide one (1) suitably qualified Hull Technician to provide technical support. Qualifications include proficiency to fabricate, install or repair hull structures, plumbing or piping subsystems. It is desirable that this qualified person shall be thoroughly familiar with SDV specific Restricted Availability Procedure, the SDV drawing package, and the SDV Integrated Test Plan. The contractor shall be fully qualified to maintain and operate test support craft, including a twenty-six (26) foot twin outboard and a thirty-three (33) foot inboard diesel SDV chase boat.

(e) The contractor shall provide one (1) suitably qualified Mechanical Technician to provide technical support. This qualified person shall be proficient in the use of CNC and manual milling machines, lathes and typical machine shop equipment/tools. It is desirable that this qualified person shall be thoroughly familiar with the SDV Restricted Availability Procedure and the SDV drawing package, and SDV specific documentation requirements and practices.

(f) The contractor shall provide one (1) suitably qualified Quality Control (QC) Inspector to provide QC support. This person shall be proficient in the use of precision measuring instruments, such as micrometer and vernier calipers. It is desirable that this person shall be thoroughly familiar with SDV specific documentation requirements and practices.

(g) The contractor shall provide one (1) suitably qualified QC Tester to provide QC support. This person certified and qualified to NAS 410. All non-destructive weld testing shall be in accordance with NAVSEA Tech Pubs S9074-AR-GIB-010/0278 and S9074-AS-GIB-010/271. It is desirable that this person shall be thoroughly familiar with SDV specific documentation requirements and practices.

(h) The contractor shall provide one (1) suitably qualified Welder to provide technical support. This person shall be qualified and certified to NAVSEA Tech Pub S9074-AQ-GIB-010/0248. All welding shall be done in accordance with the requirements of NAVSEA Tech Pub S9074-AR-GIB-010/0278. It is desirable that this person shall be thoroughly familiar with SDV specific procedures and requirement.

3.2.3 Shops

(a) The contractor shall provide a suitably qualified Fiberglass Worker to provide shop support. This person shall be proficient in the use of fiber reinforced composite lay-up and vacuum bagging tools and processes. It is desirable that this qualified person shall be thoroughly familiar with SDV and undersea systems specific design procedures, documentation requirements, and practices.

(b) The contractor shall provide a suitably qualified Machinist to provide machining support. This person shall be proficient in the use of milling and lathe and typical machine shop equipment and tools. It is desirable that this qualified person shall be thoroughly familiar with SDV and prototype component specific procedures, documentation requirements, and practices.

(c) The contractor shall provide a suitably qualified CNC Machinist to provide machining support. This person shall be proficient in the use of CNC milling machines and lathes, and other typical machine shop equipment and tools. It is desirable that this qualified person shall be thoroughly familiar with SDV and prototype component design and fabrication specific procedures, documentation requirements, and practices.

(d) The contractor shall provide a suitably qualified Metal Fabricator to provide fabrication support. This person shall be proficient in the use of typical metal rolling/bending, breaking, pressing, punching, drilling, grinding, cutting and shearing tools and/or machines. It is desirable that this qualified person shall be thoroughly familiar with SDV and prototype component design and fabrication specific procedures, documentation requirements, and practices.

(e) The contractor shall provide a suitably qualified CAM Operator to provide machining support. This person shall be proficient in the use of CAM software and CAM milling machines. It is desirable that this qualified person shall be

thoroughly familiar with SDV and prototype component design and fabrication procedures, documentation requirements, and practices.

(f) The contractor shall provide one (1) suitably qualified Electronics Materials Handler to provide support. This person must be familiar with SDV electronics systems and SDV inventory management practices. This person shall be proficient with various computer programs including Microsoft Word, Excel & Access, CMPro & SIMS databases, and web browsing software. It is desirable that this qualified person shall be thoroughly familiar with SDV specific procedures, documentation requirements, and practices.

(g) The contractor shall provide one (1) suitably qualified Materials Handler to provide support. This person shall pull material and move it to different locations and must be able to operate a forklift for bulk or large materials. This person shall be proficient with various computer programs including Microsoft Word, Excel, & Access, and web browsing software. This person must also become proficient with SDV inventory management practices, including the use of CMPro & SIMS databases. Familiarity with and SDV systems, procedures, documentation requirements, and practices are desirable.

3.2.4 Engineering

(a) The contractor shall provide one (1) suitably qualified Computer Engineer to provide engineering support. This person shall be proficient in C/C++ programming with the ability to write and read technical documentation. It is also desirable that this person has (1) embedded systems programming skills, (2) microprocessor and digital hardware knowledge, and (3) UNIX/Linux knowledge.

(b) The contractor shall provide one (1) suitably qualified Electronics Engineer to provide engineering support. This person shall be proficient in electronic engineering concepts of circuit design, circuit simulation, prototype documentation, and error detection and correction. This person shall also be proficient at cross-referencing electronic components and identifying alternates with identical electrical specifications, redlining engineering drawings based on written technical documentation, and writing technical documentation based on engineering drawings.

(c) The contractor shall provide one (1) suitably qualified Mechanical Engineer to provide engineering support. This support shall include proficiency in mechanical engineering design of bracketry, watertight housings, weldments, electronic packaging schemes, and other mechanical components. This support shall also include proficiency in documentation and drafting support information, including 3D modeling for both new and existing mechanical designs, all of which is to be performed or imported and fully detailed in either Solid Edge or AutoCAD. This support shall also include proficiency in concept research and development, market surveys and studies, and general research and investigation in support of mechanical designs. This support shall also include proficiency in Hydrodynamic and Finite Element Analysis.

3.2.5 Miscellaneous Support Requirements

Unless specifically directed otherwise, the contractor shall provide all of the typical and customary hand and power tools required to meet all of the task area requirements. The contractor shall supply all normal consumable shop supplies required to complete each task. The contractor shall provide and maintain a Quality Assurance (QA) / Quality Control (QC) system in accordance with the requirements of ANSI/ASQC Q9002. The quality system procedures, planning, and all other documentation and data that comprise the quality system shall be made available to the purchaser for review and approval. The purchaser may perform any necessary inspections, validations, verifications and evaluations necessary to ascertain conformance and compliance to the requirements and adequacy of the implemented procedures. The purchaser reserves the right to disapprove the quality system or portions thereof when it fails to meet its contractual requirements. The supplier shall require of sub-tier suppliers a quality system that achieves control of quality of the services and supplies provided. The contractor shall provide all of the Objective Quality Evidence (OQE) required by the component drawings provided as GFI including completed test procedures, material certifications, and certificates of compliance/conformance, and all other OQE required by the drawings.

4.0 GOVERNMENT FURNISHED INFORMATION (GFI) AND MATERIAL (GFM)

4.1 The Government will provide the contractor with the information specified in section 2.0 of this SOW on an as required basis. All GFI shall be returned upon completion of its use.

CONTRACT NO. N00178-04-D-4028	DELIVERY ORDER NO. HR01	AMENDMENT/MODIFICATION NO. 53	PAGE 39 of 74	FINAL
----------------------------------	----------------------------	----------------------------------	------------------	-------

4.2 The Government will provide the contractor with the material on an as required basis. All unused GFM shall be returned upon completion of its task.

5.0 DELIVERABLES

The contractor shall provide deliverables in accordance with attached Contract Data Requirements List (CDRL), DD Form 1423, Exhibit A. All CDRL deliverables, directed, in block 14, to NSWC PC, Code S12, shall be sent to Mr. Greg Smith's attention. All CDRL deliverables, directed, in block 14, to NSWC PC, Code S11, shall be sent to Michael Doctor's attention.

6.0 PERIOD OF PERFORMANCE

The initial period of performance shall be for one (1) year after issuance of order. Subsequent one (1) year extensions, contingent upon availability of Government funding and acceptability of contractor performance, may be available for four (4) additional years. This SOW shall not exceed a total of five (5) years.

7.0 SECURITY

The contractor will require access to classified information to the SECRET level. All work generated by the contractor will be UNCLASSIFIED. The requirements of the attached DD Form 254 apply.

8.0 DISTRIBUTION LIMITATION STATEMENTS

Technical documents generated under this task shall carry the following handling statements affixed to the cover and title page.

(1) DISTRIBUTION LIMITED TO DEPARTMENT OF DEFENSE (DOD) AND U.S. DOD CONTRACTORS ONLY: PREMATURE DISSEMINATION, (DATE STATEMENT APPLIED). OTHER REQUESTS SHALL BE REFERRED TO CNO (N851).

(2) NO DISTRIBUTION OF THIS REPORT SHALL BE MADE TO DTIC.

(3) NO SECONDARY DISTRIBUTION

(4) In addition to the above, apply the following caveat to SDV technical documentation:

WARNING – this document contains technical data whose export is restricted by the Arms Control Act (Title 22, U.S.C., Sec 2751, et. seq.) or the Export Administration Act of 1979, as amended, Title 50, U.S.C., app 2401 et. seq. Violations of these export laws are subject to severe criminal penalties. Disseminate in accordance with provisions of DOD Directive 5230.25.

Destruction Notice - For classified documents, follow procedures in DOD 5220.22 M, National Industrial Security Program Operating Manual, Chapter 5, Section 7 or DOD 5200.1 R, Information Security Program regulation. For unclassified, limited documents, destroy by any method that will prevent disclosure of contents or reconstruction of the document.

9.0 RELEASE OF INFORMATION

All technical data provided to the Contractor by the Government shall be protected from public disclosure in accordance with the markings contained thereon. All other information relating to items to be delivered or services to be performed under this contract shall not be disclosed by any means without prior written approval of the authorized representative of the Contracting Officer. Dissemination or public disclosure includes, but is not limited to, permitting access to such information by foreign nationals or by any person or entities; publication of scientific or technical papers, advertising, or any other proposed public release. The Contractor shall provide adequate protection to such information so as to preclude access to any person or entity not authorized such access by the Government.

This requirement is performance based. The standards for performance, the Acceptable Quality Level (AQL), performance monitoring plan and incentives are defined as follows:

Required Service: On time delivery.

Standard: Delivered on or before due date.

AQL Requirement: Delivered on time.

Method of Surveillance: TOM/Technical POC verification.

Positive/Negative Incentive: 2% reduction in fixed fee if AQL requirement is not met.

Required Service: Quality.

Standard: Acceptable Quality with minimal rework..

AQL Requirement: Minimal rework required..

Method of Surveillance: TOM/Technical POC verification.

Positive/Negative Incentive: 2% reduction in fixed fee if AQL requirement is not met.

NSWCPC – G12 INVOICE INSTRUCTIONS (WAWF)

(a) In accordance with the clause of this contract entitled “ELECTRONIC SUBMISSION OF PAYMENT REQUESTS” (DFARS 252.232-7003), the Naval Sea Systems Command (NAVSEA) will utilize the DoD Wide Area Workflow Receipt and Acceptance (WAWF) system to accept supplies/services delivered under this contract. This web-based system located at <https://wawf.eb.mil> provides the technology for government contractors and authorized Department of Defense (DoD) personnel to generate, capture and process receipt and payment-related documentation in a paperless environment. Invoices for supplies/services rendered under this contract shall be submitted electronically through WAWF. Submission of hard copy DD250/invoices may no longer be accepted for payment.

(b) It is recommended that the person in your company designated as the Central Contractor Registration (CCR) Electronic Business (EB) Point of Contact and anyone responsible for the submission of invoices, use the online training system for WAWF at <http://wawftraining.com>. The Vendor, Group Administrator (GAM), and sections marked with an asterisk in the training system should be reviewed. Vendor Quick Reference Guides also are available at <http://acquisition.navy.mil/navyaos/content/view/full/3521/>. The most useful guides are “Getting Started for Vendors” and “WAWF Vendor Guide”.

(c) The designated CCR EB point of contact is responsible for activating the company’s CAGE code on WAWF by calling 1-866-618-5988. Once the company is activated, the CCR EB point of contact will self-register under the company’s CAGE code on WAWF and follow the instructions for a group administrator. After the company is set-up on WAWF, any additional persons responsible for submitting invoices must self-register under the company’s CAGE code at <https://wawf.eb.mil>.

(d) The contractor shall use the following document types, DODAAC codes and inspection and acceptance locations when submitting invoices in WAWF:

Type of Document (contracting officer check all that apply)

Invoice (FFP Supply & Service)

Invoice and Receiving Report Combo (FFP Supply)

Invoice as 2-in-1 (FFP Service Only)

SECTION H SPECIAL CONTRACT REQUIREMENTS

Applicable Special Contract Requirements are in Section H of the Basic Contract.

TECHNICAL INSTRUCTIONS

All technical instructions are to be issued by the Task Order Manager, in writing, with a copy to the Contracting Officer. Technical instructions may only be issued to provide further guidance and may not be used to direct additional work. Each technical instruction shall include the CLIN, an assignment no. and period of performance.

AWARD TERM CLAUSE

In addition to the terms and conditions set forth elsewhere in this order, the contractor may earn an award term incentive consisting of an extension to the order period from the minimum one (1) year to a maximum of five (5) years on the basis of performance. For each year of the order, contractor performance is evaluated and ratings are assigned based on how well the contractor has performed. If ratings are satisfactory or better for Year 1, the contractor earns Year 2; if ratings are satisfactory or better for Year 2, the contractor earns Year 3, and so on up to the maximum of five (5) years. But if ratings are less than satisfactory for any year, then the order is ended. The evaluation criteria and the award term procedures are described in the "Award Term Plan".

AWARD TERM PLAN

The Government will assess the quality of the Contractors performance as follows:

a. The Areas of Evaluation are as follows:

- QUALITY OF PRODUCT/SERVICE
- SCHEDULE
- COST CONTROL
- BUSINESS RELATIONS
- MANAGEMENT OF KEY PERSONNEL
- Comments

b. Ratings. The ratings used are:

Rating	Definition
Exceptional (Dark Blue)	Performance meets contractual requirements and exceeds many requirements to the government's benefit.
Very Good (Purple)	Performance meets contractual requirements and exceeds some to the government's benefit.
Satisfactory (Green)	Performance meets contractual requirements.
Marginal (Yellow)	Performance does not meet some contractual requirements. The element being assessed reflects a serious problem for which the contractor has not yet implemented satisfactory corrective actions.
Unsatisfactory (Red)	Performance does not meet contractual requirements and recovery is not likely in a timely manner. Contractor's corrective actions to date are ineffective.

The contractor must receive a rating of satisfactory or better on each of the above evaluation areas in order to receive the award-term incentive. A rating of less than satisfactory on any of the above criteria will result in the incentive not being earned.

c. Evaluation Period. The evaluation periods will be (1) from award of the order through the end of the base period of performance and (2) for each award term year thereafter. Interim evaluations will also be conducted as described in paragraph (e) below.

d. Personnel. The Government evaluation team shall consist of an Assessing Official, performance monitors, and a Reviewing Official. Their responsibilities include:

(1) Assessing Official. This individual considers all information from performance monitors and other pertinent sources and prepares the written reports evaluating the contractor's performance.

(2) Performance Monitors. Performance monitors continually monitors contractor's performance at the task order level and provide input to the Assessing Official to be used in preparing performance reports. Monitors may provide written and or verbal input as directed by the Assessing Official.

(3) Reviewing Official. The Reviewing Official is normally the contract specialist administering the task order. That individual will reconcile any disagreements between the Assessing Official and the contractor and will finalize ratings and close reports whenever such disagreements exist.

e. Interim Evaluations. An interim evaluation shall be conducted at the midpoint (e.g. end of sixth month for a 12 month period of each evaluation period. No later than 15 calendar days after the midpoint of the evaluation period, the Assessing Official shall notify the contracting officer of the contractor's current strengths and weaknesses on the basis of inputs from the performance monitors and other pertinent sources. The contracting officer will then issue a letter to the contractor describing the strengths and weaknesses identified by the Assessing Official. The contracting officer may also issue letters at any time when it is deemed necessary to highlight areas of Government concern.

f. End-of-Period Evaluations. No later than 15 calendar days prior to the end of the evaluation period, the Assessing Official shall initiate a report covering the entire evaluation period and submit that report to the contractor for review and comment. The contractor shall review the report and provide comments to the Assessing Official within 10 calendar days. If the contractor concurs with the ratings in the report, then the Assessing Official will finalize the ratings and close the report. If the contractor does NOT concur with ratings, then the Assessing Official will forward the report to the Reviewing Official. The Reviewing Official will then reconcile any disagreements between the Assessing Official and the contractor, finalize the ratings, and close the report. All reports must be closed no later than the final day of the evaluation period. Once the report is closed, the ratings are not subject to dispute by either party.

g. Award-Term Determination. The contractor must receive a rating of satisfactory or better on each of the evaluation criteria in order to be eligible to have the task order extended. The Contracting Officer will review the closed report to determine if the award term has been earned and issue the appropriate unilateral contract modification. The award term is subject to cancellation based on the following specific contingencies: elimination of the requirement; lack of funding; and unfavorable determination that price is fair and reasonable.

h. Changes to the Award-Term Plan. This award term plan is a part of the order and can only be changed by a bi-lateral modification to the order. Either party may propose a change to the plan at any time. However, if either party desires a change and a mutual agreement cannot be reached, then this original Award-Term Plan will remain in full effect.
